

Sustainability Statement

In the rapidly changing global economic environment, Yingkou Zhongjie Shida Separator Co., Ltd. deeply recognizes that the long-term success of the enterprise is inseparable from the sustainable development of the society, the harmonious coexistence of the environment and the steady growth of the economy. Therefore, we hereby publish this Sustainability statement to clarify our commitment and direction of action for the future and to lead the industry in a greener, inclusive and responsible direction.

I. Environmental Responsibility

- 1. Energy Saving, Emission Reduction and Green Production:** We will continue to optimize the production process, reduce resource consumption and waste emissions, actively adopt clean energy, improve energy efficiency, and strive to achieve low carbon and circular production process.
- 2. Ecological Protection and Restoration:** Respect natural ecosystems, protect biodiversity, participate in or support ecological restoration projects, and ensure that our business activities do not cause irreversible damage to the natural environment.
- 3. Green Supply Chain Management:** Promote suppliers to follow the principle of sustainable procurement, prioritize environmentally friendly materials, reduce packaging waste, and jointly build a green supply chain system.

II. Social Responsibility

- 1. Employee Well-being and Diversity:** We are committed to creating a safe, healthy and fair working environment for our employees, providing career development opportunities, promoting gender equality and diversity, and ensuring that every employee can realize their personal value.
- 2. Community Participation and Public Welfare:** Actively participate in community construction, support education, poverty alleviation, health and other public welfare projects, use corporate resources to help social progress, and share development results with the community.
- 3. Protection of Consumer Rights and Interests:** Adhere to the integrity of management, provide high-quality products and services, protect the rights and interests of consumers, establish a transparent and fair communication mechanism, and enhance consumer trust.

III. Economic Contribution and Innovation Leadership

1. **Sustainable Development Strategy:** Integrate the concept of sustainable development into corporate strategic planning, formulate clear sustainable development goals, regularly evaluate progress, and ensure that sustainable development becomes the core driving force for corporate development.

2. **Innovation-driven Development:** Increase investment in research and development, promote technological innovation and business model innovation, improve resource utilization efficiency, develop low-carbon and environmentally friendly new products and services, and lead the sustainable development trend of the industry.

3. **Value Co-creation and Sharing:** Establish close cooperative relations with partners, customers, government and all sectors of society, jointly explore new paths of sustainable development, achieve value co-creation and sharing, and promote comprehensive, coordinated and sustainable economic and social development.

Conclusion

We are well aware that sustainable development is a long-term and arduous task that requires our persistent efforts and the participation of the whole society. Guided by this statement, we will continue to innovate ourselves, actively fulfill our social responsibilities, and contribute our strength to building a better future of harmonious coexistence between man and nature. We believe that through unremitting efforts, we can achieve the harmonious unity of economic benefits, social benefits and environmental benefits, and create a better tomorrow of sustainable development.
